| Installation hardware, labor & logistics | \$1,253 | Communications & Technology |
| Entranceway landscaping | \$1,000 | Buildings & Grounds |
| Stone for additional columbarium unit | \$5,500 | Remembrance Garden |

Faith Formation looks to add to the selection of children's Bibles for Worship with *God's Stories by God's People*. From Joelle: We were fortunate to receive a grant from the Wonder of Worship initiative to purchase 2 sets of children's Bibles to use in worship. While these two titles cover many (about 1/2) of the readings that come up in the Revised Common Lectionary cycle, they still do not represent the entire "adult" Bible. A new children's Bible title was released recently (*God's Stories by God's People*) and it fills in many of the gaps in the other titles. We would like to build a set (20 copies) of this title so that we are able to align Time With Young Disciples with the Revised Common Lectionary on a more consistent basis. Questions? Contact Joelle Brummitt-Yale.

Communications & Technology recently worked with a specialist to review our sanctuary technology and modernize our audio-visual equipment. The above items are part of the plan to update to digital equipment from analog. Much of the wireless equipment (mics, transmitters and receivers) is at least 20 years old with analog technology which can be subject to electrical interference. The total is estimated at \$6,241 including installation. Once all equipment is funded, the project can proceed. Contact Nancy Donny.

Buildings & Grounds plans to refresh the front landscaping by Great Ridge Parkway. Contact Bruce Raymond.

Remembrance Garden team desires to build an additional columbarium unit for future members. This cost is for the stone. Contact Jerry Wehmueller.
